**POGOH BIKESHARE CELEBRATES LAUNCH
OF
ADAPTIVE POGO**
FLEET OF SEVEN UNIQUE CYCLES FOR RIDERS OF ALL
ABILITIES

PITTSBURGH, PA — Bike Share Pittsburgh, the nonprofit operator of POGO H bikeshare sponsored by Highmark and Allegheny Health Network, celebrated the launch of a new bike program today called Adaptive POGO H. Adaptive POGO H creates access to cycling for people of all abilities and includes a fleet of seven unique cycles to suit a variety of riders. The fleet includes a tandem bicycle, a hand tricycle, an adult tricycle, a low-step through bicycle, a cargo bicycle, a side-by-side tricycle, and a recumbent bicycle. Adaptive POGO H is located at the Eliza Furnace Trailhead Lot and is a free service that's open to the public every Sunday and Wednesday, 10:00 AM to 2:00 PM through September. Reservations can be made in advance, and walk-ups are accepted pending availability.

“Physical and mental disabilities should not limit anyone’s ability to use POGO H to safely experience the joys and wonders of Pittsburgh,” said David White, Executive Director for Bike Share Pittsburgh. “Today we’re making progress to make short bicycle trips possible for people of all ages and abilities. Our adaptive fleet is ready to help residents and visitors explore our City!”

After over 9 years of operations, Bike Share Pittsburgh has served over 100,000 customers, and facilitated over 1 million rides. Adaptive POGOHO will operate separately from the traditional POGOHO network, offering riders a personalized experience at a single location on the Eliza Furnace Trail. The Adaptive POGOHO bike fleet is intended to broaden the offerings of bikeshare to include people who are not currently served by the traditional bikes currently in the station-based bikeshare fleet, and build more opportunities for more people to ride.

“Highmark Bright Blue Futures is dedicated to healthier, brighter and stronger futures for all,” said Kenya T. Boswell, senior vice president of Community Affairs at Highmark Health. “We are proud to support POGOHO Bikeshare in this healthy activity, giving people of all abilities the opportunity to enjoy bicycle trips in our beautiful city.”
